## Breaking News!

### 'Sweet & easy roses'

**"June is rose buying and planting time and this year we have chosen the best varieties with the two features gardeners want most in a rose – wonderful perfume and easy care."**

The June issue features a rose special that uses Flower Carpet® AMBER as the titled hero image and also lists Flower Carpet® AMBER first, in their 'Fragrant & Healthy: our Top Ten'.

Going on to say; "These 10 roses all have a great rose scent and have also shown themselves to be strongly disease-resistant, even in humid climate zones.

**This fabulous inclusion in *Burke's Backyard* magazine continues to keep Flower Carpet® AMBER front of mind with consumers.**

**Maintain front of store displays for this remarkably hardy, ground cover rose.**

Best regards,

Corrinne Mutsaers
